

Say It Sweet

DIY party
decor before
you can say
"dessert."

Wire Cake Topper

{CREATIVE INSPIRATIONS *free* FROM HOBBY LOBBY®}

SUPPLIES:

- Wire
- Marker
- Scissors
- Blank paper
- Paper flowers
- Hot glue gun/glue sticks
- Pliers – round nose or long nose

1. Write word on paper. Then use pliers to shape wire to match letters. Note: Be sure to leave a long tail after the last letter—you'll insert this part into the cake.
2. Cut small paper circles for flower backs, and hot glue them to flowers. If desired, add coiled-wire embellishments as shown.
3. Arrange flowers on cake and insert topper, reshaping wire as needed. Note: The Flowers and wire are **NOT** consumable. These non-edible items must be removed before serving the cake.

Start garden-party season with a bang—and a bloom.
